LEGAL AI INSIGHTS

Small Models Are Fast. Legal Still Needs Proof.

SLMs can help legal teams move faster, but they should not be treated as legal authority.

LEGAL AI INSIGHTS

SLMs Have a Real Role in Legal AI

They can classify clauses,
extract obligations,
route requests,
summarize documents,
and flag risk terms.

LEGAL AI INSIGHTS

Where SLMs Work Best

Narrow, repeatable, high-volume legal workflows where speed and structure matter.

LEGAL AI INSIGHTS

The Advantage Is Real

Lower cost, lower latency, more deployment control, and better fit for private environments.

COST SAVINGS | LOWER LATENCY | CONTROL & PRIVACY

LEGAL AI INSIGHTS

But Legal Work Needs More Than Pattern Recognition

Legal requires source grounding, current knowledge, version control, jurisdiction, and audit trails.

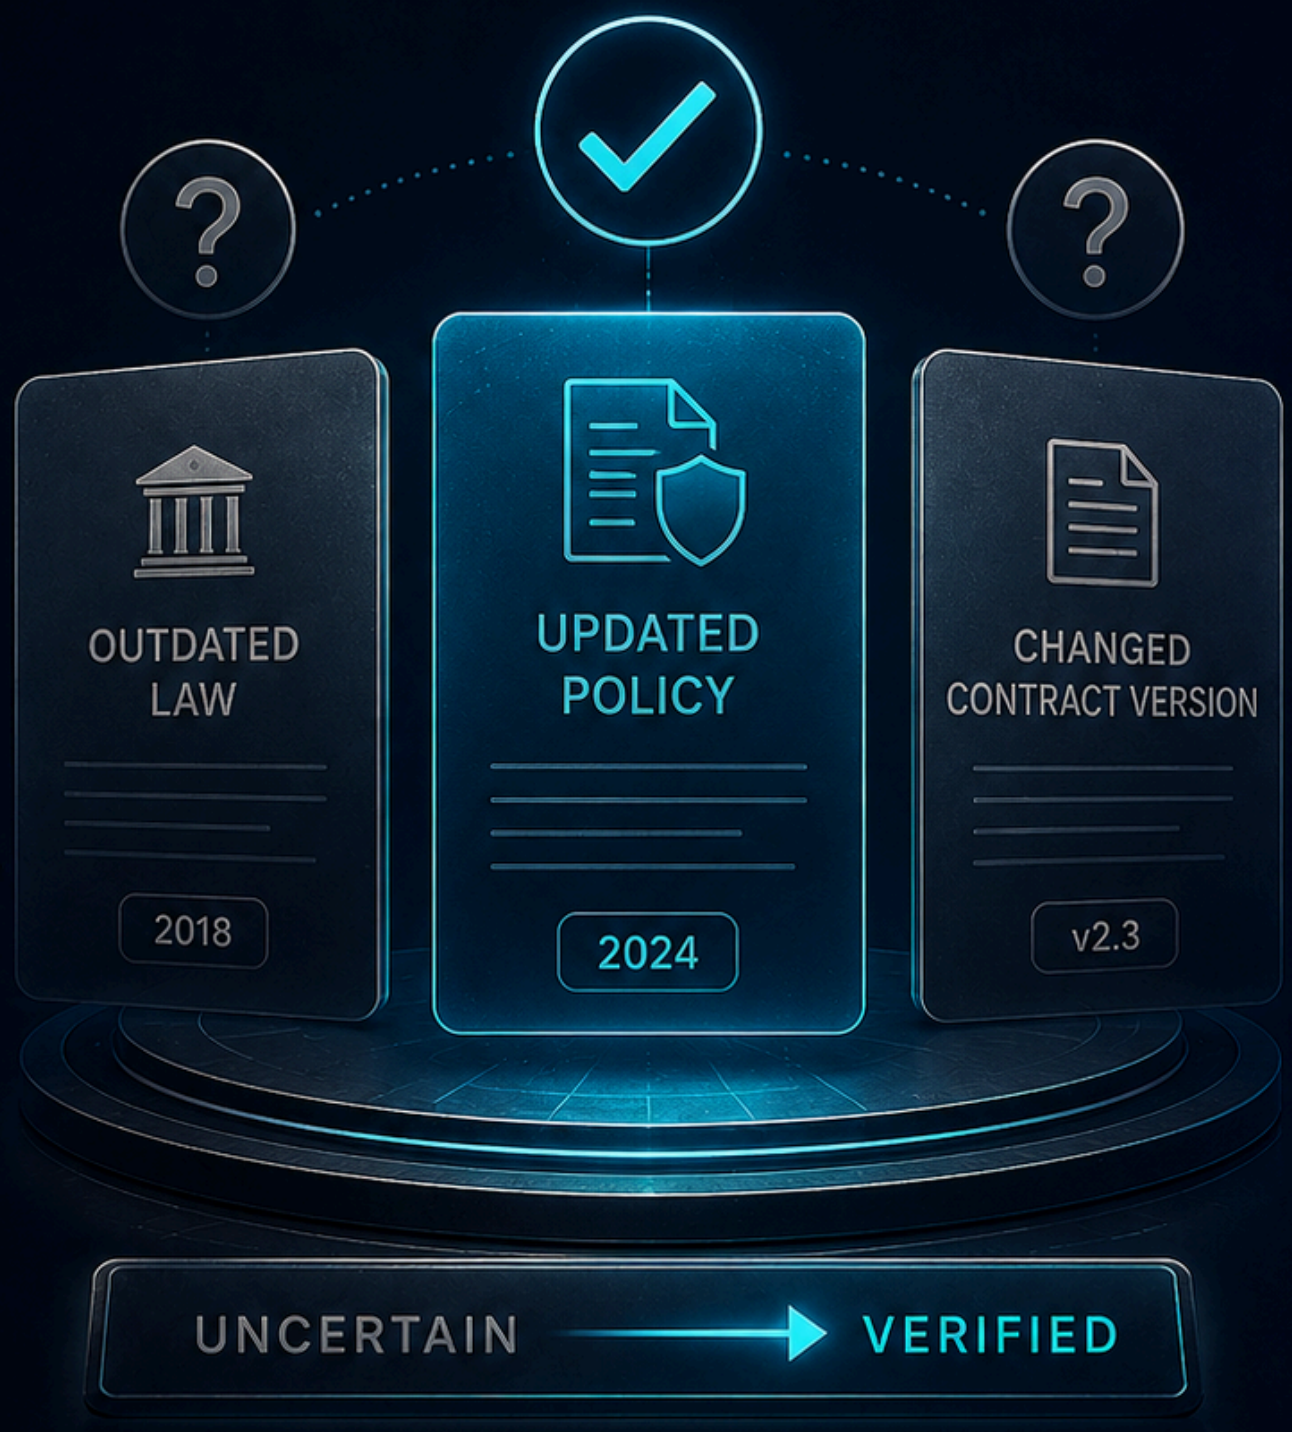
LEGAL AI INSIGHTS

Model Memory Is Not Legal Authority

A model may not know if the law changed, a policy was updated, or the contract version changed.



UNCERTAIN | VERIFIED | RELIABLE

LEGAL AI INSIGHTS

Legal Cannot Accept "Trust Me, I Know"

Legal needs the answer, source, clause, version, confidence level, and escalation path.

DEFENSIBLE | TRACEABLE | ESCALATABLE

LEGAL AI INSIGHTS

The Source of Truth Is the Legal Material

Contracts, regulations, policies, playbooks, templates, clause libraries, matter files, and approved guidance.

The Right Architecture

SLM for execution.

RAG for evidence.

Verification for support.

Human review for judgment.

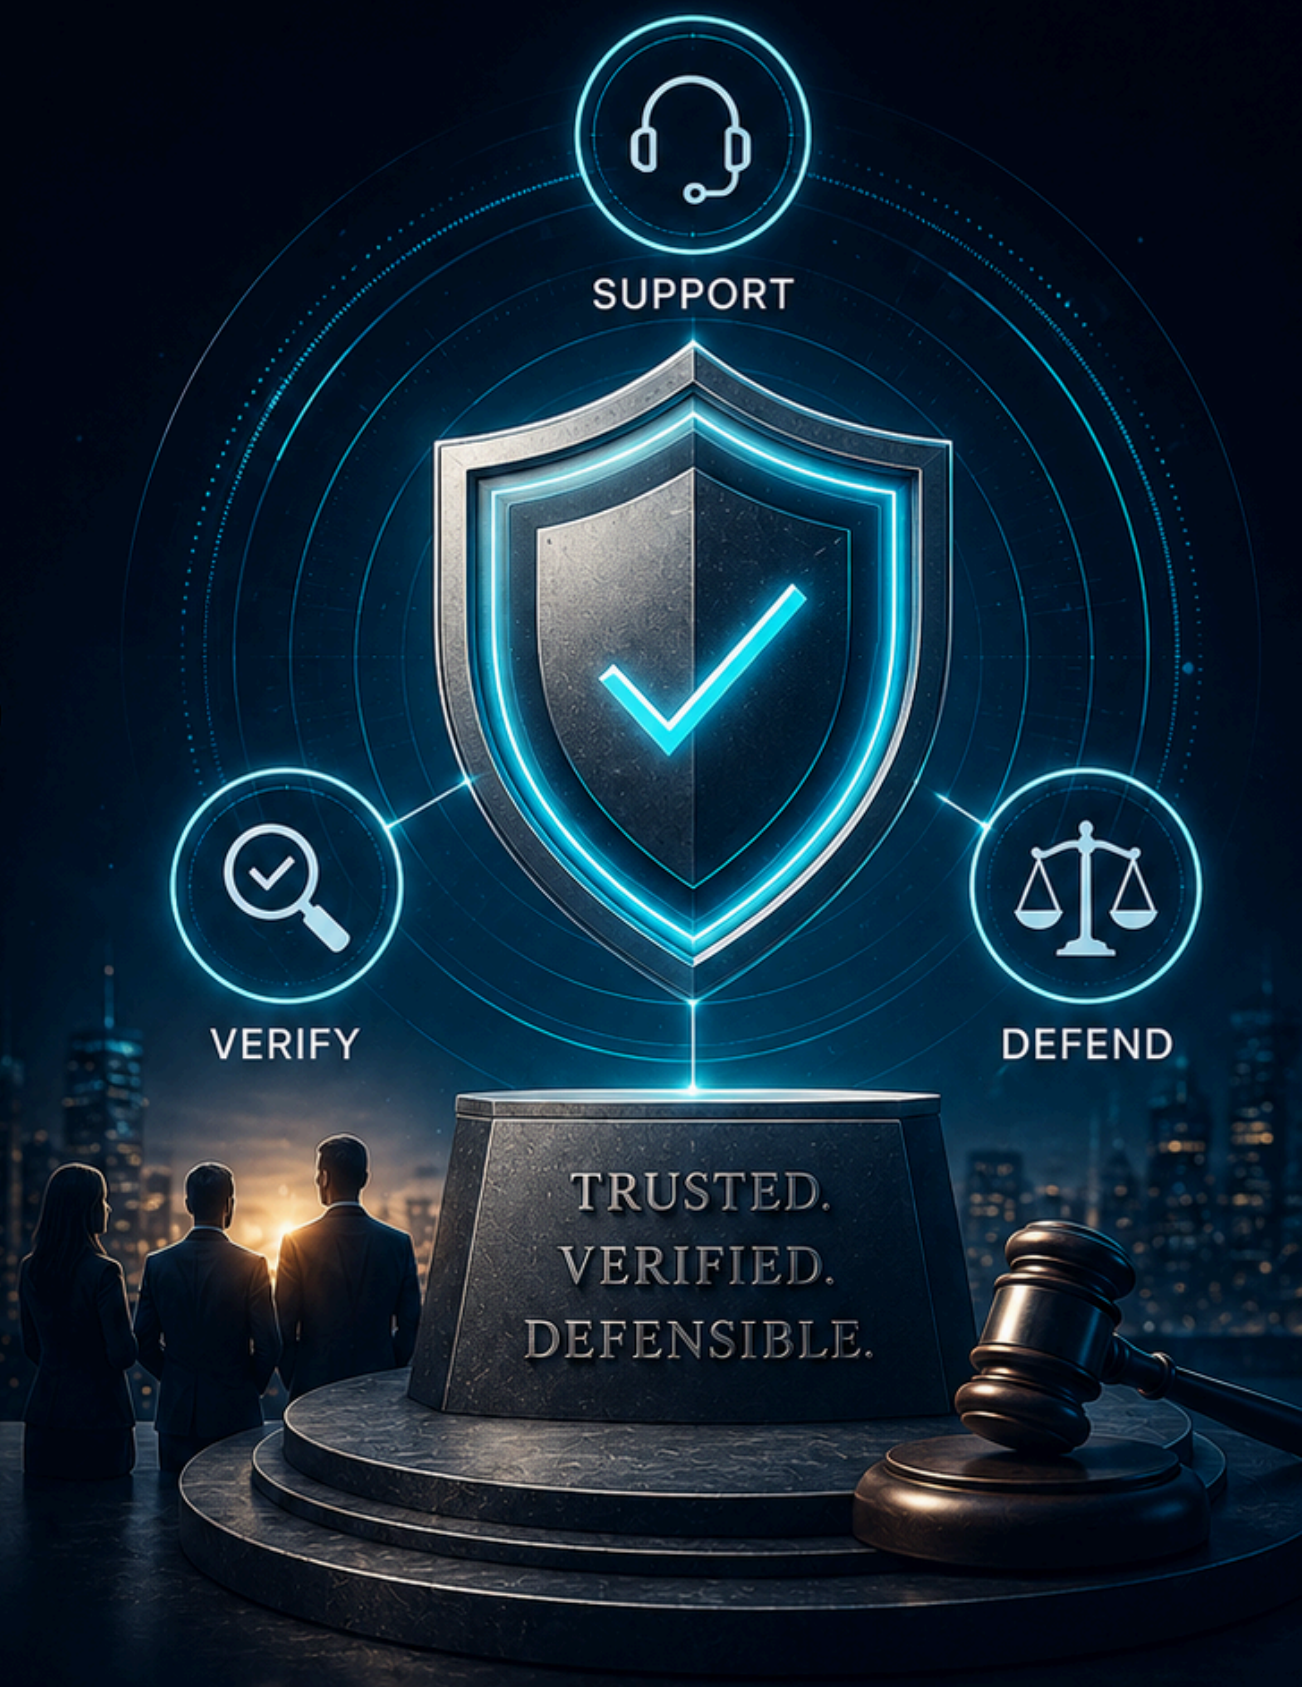
LEGAL AI INSIGHTS

Legal AI Must Support, Verify, and Defend



The goal is not just to generate.
The goal is to help legal teams
rely on the output.

HUMAN RELIANCE

VERIFIED TRUTH

STRONGER OUTCOMES
