Agentic AI Tools CTOs Should Test Now

AI is moving beyond copilots.
The next wave can :

Reason. Act. Adapt. →

thunai

→

Thunai AI

For : Support and knowledge automation
Resolves L1 queries across voice and text.

Impact :
Faster resolutions. Lower support costs.

thunai

Claude Code & MCP

For : Agentic engineering workflows
Claude Code builds and debugs.
MCP connects it to enterprise tools.

Test : One real feature branch.

thunai

AutoGen & CrewAI

For : Multi-agent workflows
One agent researches.
One analyses.
One delivers.
Open-source. Flexible. Scalable.

thuna

Before Testing Any Agent

Ask :

1. What will it own?
2. What must it access?
3. How will success be measured?
4. What happens when it fails?

Which one are you testing ?
